**GunDocx™** was specifically designed to help you acquire, own, share, and transfer your firearms the way you want.

Free trusts, DIY trusts, online trusts, *and any conventional living trust* put you and your family at risk. Get a trust designed specifically for guns.

## What is a gun trust?

Simply put, it's a revocable living trust (RLT) specifically written to own guns. Trusts are commonly used for estate plans, while a **GunDocx™** Trust is specifically written for firearms with detailed instructions about how trust assets will be used and for whom. You can change it when you want, and you can share on your terms.

## WHAT IS A GUN TRUST FOR?

Most gun owners prefer using an entity to make it easier to acquire NFA firearms they can own in their state.

Using an entity avoids the need to apply through your local Chief Law Enforcement Officer for a "sign-off" before applying to the BATFE. A **GunDocx™** Trust does not require annual state registration or fees.

A **GunDocx™** Trust does far more. It's an estate plan for your firearms. It's your rulebook about how your guns may be used. A gun trust can avoid probate of your guns at death. It can provide that certain guns go to certain people. It provides rules and instructions that prevent accidental felonies when others use or are instructed to transfer a firearm as a sale, gift, or bequest.

## HOW DOES IT WORK?

You appoint a Trustee who is given power to administer trust assets and benefit persons, all of which is stated in your document. You can design it for anyone, including yourself, and you can be the Trustee and beneficiary, too.

The trust is "funded" with guns and accessories so that it owns them. We use several types of forms, generally by assignment or bill of sale.

## WHAT IS THE "ACCIDENTAL FELONY" I HEAR ABOUT?

Local, state, and federal laws control registration, possession (even temporarily such as when shooting) and legal ways to transfer firearms. Some transfer violations *do not require the intent to commit a crime... the act alone may be a felony!*

## Why Choose GunDocx™?

A purpose-built **GunDocx™** Trust safeguards you from the risks associated with owning and transferring firearms to others such as your beneficiaries.

**GunDocx™** protects your privacy, your property, family and friends.

An improperly drafted gun trust creates serious problems. Such trusts include the "free" or do-it-yourself trusts that can be downloaded from the internet or acquired from a local gun shop. The only attraction is "price". Most, if not all such trusts are SILENT about compliance with gun laws.

## WHAT COULD HAPPEN WITHOUT USING A "REAL" GUN TRUST?

An invalid or noncompliant trust risks firearms confiscation or even commission of an "accidental" felony. This can occur when you innocently "share" treasured but regulated (NFA) firearms with your family or friends. Penalties are severe - up to ten years in prison as well as fines up to \$250,000, or more, for conviction under the NFA.

## THE GUNDOCX™ SOLUTION

A **GunDocx™** Trust helps you and yours enjoy your firearms collection within the law and reduce exposure to criminal penalties for doing so improperly.
